PROFESSIONAL SUMMARY

Computer Science Engineering graduate (CGPA 8.6) with internship experience building full-stack web apps, REST APIs, and production-style backend services. Shipped a GitLab–Jira webhook integration, an Express/React reporting platform, and internal product modules at Cyient using Node.js, TypeScript, React, Python, and AWS. Seeking Backend / Full Stack Engineer roles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Frontend: React.js, Next.js, HTML, CSS, Bootstrap, Streamlit, Vite
Backend / Data: Node.js, Express.js, REST APIs, Webhooks, Supabase (Auth, Postgres)
Payments & Email: Stripe, Resend
Cloud & DevOps: AWS (EC2, S3, Lambda, API Gateway), Vercel, Git, GitHub, GitLab, Jira, Linux, systemd
Observability: Sentry, Better Stack, PostHog

EXPERIENCE

Software Development Intern | QApilot Jun 21, 2026 – Aug 21, 2026

Allure Report Manager & Playwright Automation Platform TypeScript, Express, React, Sentry, Better Stack

- Built an Express + React platform to trigger test runs, stream live logs over SSE, and show pass/fail KPIs; added REST APIs for report zip/download/delete plus Sentry and Better Stack for run failures.

GitLab → Jira Webhook Bridge Node.js, Express, Jira Cloud REST API, React, systemd, Sentry

- Designed a webhook service mapping GitLab push/MR events to Jira transitions; added configurable workflow mapping, multi-user Jira auth, React admin UI, systemd deploy, and Sentry monitoring.
- Parsed GitLab push vs merge-request payloads separately and mapped each event to a Jira status (example: MR opened → In Review) so tickets update automatically.

Software Development Intern | Cyient, Hyderabad May 2025 – Aug 2025

Delivered 4 application modules for internal product use:

- Secure Company Login System:** Implemented authentication and role-based tabular UI with dynamic/static data handling for controlled internal access.
- Sales Dashboard (Python, Streamlit, Chart.js):** Built filter-driven reports and interactive charts for internal sales review.
- AI Chatbot Integration:** Integrated an in-app chatbot to handle common support queries.
- School Portal & Feedback System:** Developed dashboard and feedback modules with secure PDF/image storage for internal records.

Cloud Computing Intern | IntrnForte (Remote) Oct 2023 – Dec 2023

- Completed 10-week project-based training on cloud architecture, virtualization, and IaaS/PaaS/SaaS; deployed sample apps on AWS using EC2, S3, Lambda, and API Gateway.

PROJECTS

Hostel Admin Management System React, Node.js / Full Stack

- Built an admin platform for tenant records, fee tracking, and role-based admin/staff dashboards for daily hostel operations.

ResumeSaaS Next.js, TypeScript, Supabase, Stripe, Vercel, PostHog, Resend, Sentry

- Built a SaaS resume platform with Free (1 resume) and Pro (unlimited) plans, including signup/login, dashboard, and resume create/manage flows.
- Integrated Supabase Auth and Postgres for users and plans, Stripe Checkout with webhooks to activate Pro, Resend for signup/payment emails, PostHog for conversion events, and Sentry for production errors; deployed on Vercel.

EDUCATION

B.Tech, Computer Science Engineering — RGUKT Ongole 2022 – 2026 | CGPA: 8.6

PUC — RGUKT Ongole 2020 – 2022 | CGPA: 9.4

SSC — Bhashyam High School, Guntur 2020 | CGPA: 10

CERTIFICATIONS & ACHIEVEMENTS

- QApilot — Software Development Internship Certificate (2 months)
- Cyient — Software Development Internship Certificate (3 months)
- IntrnForte — Cloud Computing Project-Based Training (10 weeks)
- Qualified JEE Mains & Advanced
